Harvest

## Big Question: Why are the leaves changing colour?

**AUTUMN** - September, October and November

Harvest time is in this season. Temperatures drop. Skies can be overcast. Birds migrate to warmer climates. Leaves change colour and fall from deciduous trees.

During autumn time some animals, such as hedgehogs begin to hibernate.

In the autumn, farmers harvest vegetables. Harvest is celebrated to give thanks for the crops that the farmers have worked hard to grow.

## Key Vocabulary

### Autumn

A season in which the weather gets cooler and it gets darker earlier.

### Season

Divisions of the year by change of weather. There are 4 seasons a year.

### Harvest festival

Harvest is celebrated to give thanks for the crops that the farmers have worked hard to grow.
